Re: Microsoft Shape the Future K-12 institution Eligibility Letter  
for Hamilton Southeastern Schools (463E31BCDB)

### Congratulations,

Hamilton Southeastern Schools is approved as eligible for the Shape the Future K-12 program, valid until two years after the Effective Date indicated above.

The Shape the Future program allows qualifying K-12 institutions\* to purchase Windows devices from participating technology partners, typically at a discount from their retail price. Shape the Future program prices for Windows devices are set by technology partners who have access to discounted National Academic licenses. For purposes of National Academic Offers, "Education Use" means use by administrators, teachers, or students in primary or secondary schools.

These devices may only be distributed to Hamilton Southeastern Schools (463E31BCDB) and only in association with the Shape the Future program. In addition, Microsoft may require Hamilton Southeastern Schools (463E31BCDB) to submit proof of receipt of the devices, such as a technology partner invoice, a shipment record or similar documentation which demonstrates receipt. Microsoft reserves the right to terminate the Shape the Future program and this eligibility letter entirely if and when Microsoft considers it appropriate.

To take advantage of the Shape the Future program for K-12, provide this letter to a participating technology partner when requesting a price quotation or submitting an order for the fulfillment of devices with National Academic licenses. Microsoft reserves the right to validate the issuance of this letter of eligibility to technology partners, as requested.

For more information on device options and the Shape the Future K-12 program, please contact a Microsoft representative, a Microsoft Partner or visit [Microsoft.com/education](https://Microsoft.com/education).

We thank you for choosing Microsoft for your education needs. Education continues to be core to Microsoft's mission to empower every student on the planet to achieve more. Through [Office 365 Education](#), [Windows 10](#), [OneNote Class Notebook](#) and [Minecraft: Education Edition](#), we continue to offer immersive and inclusive experiences that inspire learning.

### [Microsoft in Education](#)

\*By presenting this letter or the associated certificate of eligibility as described above, you affirm that (a) you are ordering devices or requesting a quotation on behalf of the institution named on this letter; and (b) you understand that any devices acquired through the program must be used for Education Use only. Misrepresentation about a user's status or misuse of devices acquired through the StF program is a violation of the program and may result in Microsoft withdrawing the institution's eligibility, pursuit of civil damages or other serious legal consequences. Please direct any questions concerning this institution's eligibility to Microsoft at [LOEDES@Microsoft.com](mailto:LOEDES@Microsoft.com).
