

FLiCK

Financial Literacy and Intelligence Center of Knowledge

If you're struggling to get ahead, we can help.

We know that it's hard to make changes when you're already struggling. Making good money decisions can be difficult when you've been stuck in a painful cycle for so long.

FLiCK focuses on the emotional and habitual sides of money.

FLiCK will help you figure out **why** you're experiencing financial struggles, beyond just not making enough. We'll explore your beliefs, habits, and past influences on your financial state of mind. Then, we'll work together to make goals and priorities that work for you.

We don't want to just print out a budget and send you on your way. We want to help you achieve your **big goals**, like landing a better job, going back to school, or saving for a new home. We can help you **prioritize** spending time with family, or making time to relax. The plan you build at FLiCK is based on your unique situation and desires.

Contact us for a free financial counseling session.
